Dear Aditya Aditya

Congratulations on completing the Cisco® CCNA Security course as part of the Cisco Networking Academy® program. This hands-on, lab-oriented course has prepared you for exciting career opportunities in the technology industry.

You have achieved student level credential for completing CCNA Security, and acquired competencies that include the following:

- Describe the security threats facing modern network infrastructures.

- Secure Cisco Routers.

- Implement AAA on Cisco Routers using a local router database and external server.

- Mitigate threats to Cisco routers and networks using ACLs.

- Implement secure network design, management, and reporting.

- Mitigate common Layer 2 attacks.

- Implement the Cisco IOS firewall feature set.

- Deploy the Cisco ASA for firewall and NAT/PAT services.

- Implement the Cisco IOS IPS feature set.

- Implement a site-to-site VPN.

- Implement a remote access VPN.

Technical literacy is more important today than ever before, and Cisco is proud to provide you with the knowledge and skills necessary to build and maintain digital networks.

Please accept my best wishes for your continued success.

Sincerely,

Chuck Robbins
Chief Executive Officer Cisco Systems, Inc.
